Systems

About Us

Comfort Fire Systems, one of the most trusted Fire & Safety companies in Qatar, was established in 2016, under the parenthood of one of the largest Elevator companies in Qatar, Comfort Elevators and Escalators.

We are proud to say that, by applying the best industry practices, standards and prices, we enjoy an exceptional level of customer trust and satisfaction, as testified by our growing customer base. Our products meet strictly the industry standard requirements, and we always make sure to deliver the best in service. We also developed a self know-how in variety of scenarios, including residences, commercial buildings, offshore projects and underground projects, which makes us the best choice for any kind of Fire System.

Sister Concerns

Comfort Elevators and Escalators is one of the largest Elevator company in Qatar, operating successfully for almost 2 decades. Established in 2004, Comfort Elevators boast of more than 1000 clients from private, semi-government and government industries. Comfort Elevators undertake installation, modernization and maintenance works for elevators, dumbwaiters and escalators.

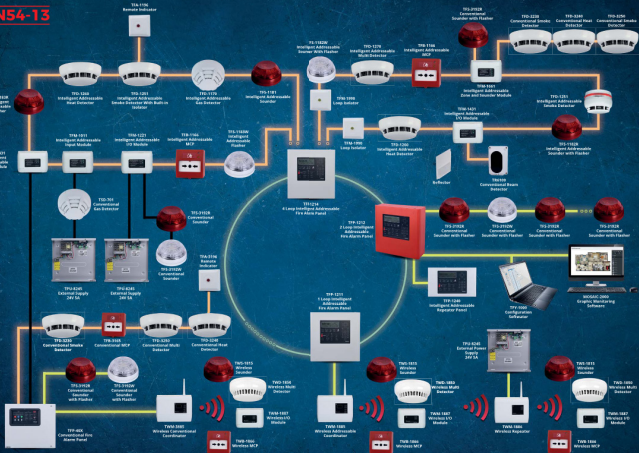

Comfort IT Solutions, established in 2013 provides complete IT solutions for various industry sectors like hospitality, manufacturing, construction and retail industry. With more than 200 clients and large project experiences, Comfort IT Solutions lead the IT industry in Qatar now.

We are proud to announce, we are the authorized dealers of tekrim in Qatar.

Tekrim specialize in burglar alarm systems and fire alarm systems. They are completely designed by Turkish engineers in Turkey and manufactured according to quality standards.

Fire Alarm Systems; started production in 2008 and currently completes both conventional and addressable fire alarm system product groups. In recent years, The company have obtained EN 54 certificate for all their products and are rapidly beginning to establish in the global market.
